

The 15th International Conference on Bioinformatics (BIOINFO 2019)

Ewha Womans University, Seoul, Korea, August 26~27, 2019

Call for Posters

We are inviting submissions for poster presentation of the BIOINFO 2019 conference. The aims of the poster session in BIOINFO 2019 are to present latest research results and to have a chance to discuss the results with conference participants for valuable insights. Topics for posters should highlight research areas as the following (but not limited to):

- Omics technology and data analysis
- Systems biology
- Medical informatics
- Chemical informatics and computational drug repositioning
- Artificial intelligence in biology and medicine
- Theoretical biology
- Databases, web servers, software packages for biological research and medicine

Poster abstracts should be directly submitted to online submission site of BIOINFO 2019 (<http://www.ksbi.or.kr/conference/AbstractReg.asp?idx=3>) by July 1, 2019.

Poster abstracts will be reviewed by the organizing committee members and accepted posters must be brought to and presented at the conference. Selected posters will be further considered for the oral presentation at the Young Scientist Session and Best Research Awards at closing remark of the conference. The notification regarding the schedule for poster presentation and further details will be emailed to the presenting and corresponding authors by July 15, 2019. Also note that poster presenters must register to attend the conference by registering online.

Posters presented during the conference will be reviewed by three committee members for the Best Poster Awards. Certificate of commendation and rewards will be awarded to four nominees by the President of KSBI at the end of the conference.

For further details about the BIOINFO 2019 program and submission guidelines, please refer to the link provided below.
